EDUCATION

TECHNOCRATS INSTITUTE OF TECHNOLOGY   Madhya Pradesh, India
Bachelor of Technology   **CGPA**: 8.10   September 2022 – July 2026
Course: Electronic and Communication, Networking, Operating System, Digital System, Microprocessor, Data Structure, Database, DBMS, OPPS

SKILLS SUMMARY

- **Technical Skills**
  - **Programming Languages:** C, C++, Java, HTML, CSS, JavaScript
  - **Library/Framework:** ReactJS, Node.js, Express.js
  - **Tools/Platforms:** GitHub, GIT, MS Office, MySQL, VS Code, IntelliJ IDEA, Linux, Figma
  - **Database:** SQL
- **Soft Skills**
  - **Languages Spoken:** English, Hindi
  - **Problem-Solving:** Critical thinking, Decision-making
  - **Communication Skills:** Active listening, public speaking
- **Hard Skills**
  - **Frontend Development:** HTML, CSS, JavaScript, ReactJS
  - **UI/UX Design:** Wireframing, Prototyping, Adobe XD, Figma
  - **Java Development:** Core Java, Spring Framework, Hibernate

PROJECTS

- **QR Code Generator | Link**
  - Created during my first year as a student.
  - Features an API endpoint that accepts URL parameters and returns the generated QR code image.
  - API endpoint is called from frontend JavaScript code to dynamically generate QR codes.
- **LinkedIn mobile UI design | Link**
  - I recently created a LinkedIn mobile UI design, blending sleek aesthetics with intuitive functionality.
  - My goal was to reimagine LinkedIn's interface with a modern touch, while maintaining the platform's.
  - I focused on ensuring that the most important elements are both easily accessible and visually appealing
- **iPhone Calculator | Link**
  - Replicates the sleek design of the iPhone calculator with responsive and scalable layout.
  - Uses premium fonts, colors, and smooth animations for an enhanced user experience.
  - JavaScript powers real-time, accurate calculations with seamless button interactions.
- **E-commerce Website | Link**
  - An innovative e-commerce website named cartZone, built using HTML, CSS, and JavaScript.
  - Backend infrastructure and database integration are underway.
  - Updates are forthcoming to enhance functionality.

CODING

- Solved 325+ problems on LeetCode | **Link**
- Solved 900+ problems on CodeChef | **Link**
- Solved 325+ problems on GeeksforGeeks | **Link**
- Solved 1200+ problems across various platforms.
- Consistently maintained a problem-solving streak for 320 days.

CERTIFICATIONS

- **15+** Certification in Coding language, AWS Cloud, Meta, Data Structure, Framework, DSA, Database, Web Development, Google Analytics, FreeCodeCamp | **Link**
